

Fatemeh Salmani

DATA ANALYST | DATA SCIENTIST

75116 Paris, France | fatemeh.salmani.contact@gmail.com

www.linkedin.com/in/fatemeh-salmani | <http://fatemehsalmani.com> | github.com/fatemeh-salmani1

Profile

Data analyst with over 5 years of experience in data analysis and building data-driven solutions. Skilled in SQL, Python, and data visualization to transform complex datasets into actionable insights and performance metrics (KPIs). Experienced in dashboard creation, user behavior analysis, and marketing performance optimization. Comfortable collaborating with both business and technical teams to support strategic decision-making.

Experience

DATA SCIENTIST | ÉCOLE DES PONTS PARISTECH

2024 – 2026

- Designed an automated Named Entity Recognition (NER) pipeline applied to privacy policy texts using NLP and deep learning techniques.
- Extracted and analyzed mobile app Terms & Conditions using scrapers and app extractors.
- Preprocessed textual data: tokenization, lemmatization, and dependency parsing using SpaCy, NLTK, and Hugging Face Transformers.
- Conducted comparative evaluation of supervised and unsupervised learning approaches—including RNN-based models, rule-based systems, and clustering techniques—to identify the best-performing method for NER.
- Implemented and fine-tuned NER models using TensorFlow, PyTorch, and Keras on open-source privacy datasets.

BUSINESS ANALYST | DELANTE

2020 – 2022

- Extracted and transformed user engagement data via APIs and SQL queries.
- Analyzed large-scale marketing datasets using Google BigQuery and Python.
- Monitored and analyzed marketing KPIs (CTR, ROI, conversions) to identify campaign performance trends.
- Developed interactive dashboards in Power BI and Google Data Studio to track advertising performance.
- Automated analytic reports in Excel and Power BI to streamline marketing decision-making.
- Collaborated with marketing and product teams to interpret data and optimize user acquisition and engagement strategies.
- Conducted exploratory analyses to uncover opportunities for campaign performance improvement.

Education

Conservatoire national des arts et métier (CNAM), Master's in Computer Science

2022 – 2024

Skills & Certifications

Programming & Data: Python, SQL (MySQL), R, Git (GitHub, GitLab)

Data Analysis: Pandas, NumPy, EDA, Data Cleaning

Visualization & BI: Tableau, Power BI, Matplotlib, Seaborn, Plotly, Google Data Studio

Machine Learning: Scikit-learn (Logistic Regression, Random Forest, Clustering)

NLP: SpaCy, Hugging Face Transformers, NLTK

Cloud & Data: Google Cloud Platform (GCP), BigQuery

Other Skills: Project Leadership, Analytical Communication, Time Management, Interdisciplinary Collaboration

Certifications: Google Data Analytics Certificate, Azure AI Fundamentals

Publications
